

South Central Kansas Library System
presents to the Kansas Library and K-12 Community

Internet Safety & Filtering

Monday, November 15, 2004
9:00 – 11:00 a.m.

ESSDACK (Educational Services and Staff Development Association of Central Kansas)
1500 East 11th, Hutchinson
(map attached)

Description:

Dr. Ken Brown, Buhler U.S.D. 313 Technology Coordinator, studies and analyzes the role of Internet filtering in Kansas' K-12 schools. Join Dr. Brown as he discusses the various beliefs, themes and patterns that emerged during his research of the Kansas K-12 educational community related to the role of Internet filtering. Fifteen minutes for questions and answers will follow Dr. Brown's presentation.

The second hour of this presentation will feature South Central Kansas Library System Director, Paul Hawkins and Automation Technology Coordinator, Larry Papenfuss presenting the latest local, state and federal issues regarding Internet safety and filtering for schools and libraries. Come join us as we delve into the latest concerns and fears of how the Internet affects libraries, schools and their communities.

Open to the Kansas library and K-12 community, this two-hour presentation will be held at the offices of ESSDACK in Hutchinson and broadcast in real time via *Kan-ed Live!* (<http://kanedlive.org>). This is the first of three sessions on Internet safety developed under the Kan-safe initiative. Follow-up sessions will be held on Friday, March 11, 2005 and Monday, May 9, 2005 at the ESSDACK offices in Hutchinson and broadcast on *Kan-ed Live!*

Two hours of continuing education in the Library Employee Education Program (LEEP) will be offered to interested participants. For further program information contact Nancy Malone, SCKLS CE Coordinator, 800-234-0529, ext. 149, nmalone@sckls.org.
